

Say hello to AccuRoute CloudFAX for Mobile

AccuRoute CloudFAX for Mobile delivers a convenient, efficient, and user-friendly way to send and receive faxes on the go.

What are the perks of mobile fax?

Your organization needs flexibility and convenience, and AccuRoute CloudFAX for Mobile is bringing all that and more. Getting started with AccuRoute CloudFAX for Mobile is a quick, simple experience. That means your workers can access the same cloud faxing features and functionalities they're familiar with right away, from anywhere and any device.

A few of the perks:

No download required, which means that rolling out a mobile experience is instantaneous

AccuRoute CloudFAX for Mobile is optimized for tablets and smartphones, but it's not an app—that means you don't need to worry about outdated versions and app updates

Access secure fax transmissions from any internet-enabled device without storing any information on the device, ensuring that the data you transmit is secure

For users who prefer a more app-like experience, they can easily bookmark a link on their home screen

How does AccuRoute CloudFAX for Mobile work?

Enjoy the convenience, accessibility, and safety of cloud fax from anywhere. AccuRoute CloudFAX for Mobile covers all of the core functionalities you need, optimized conveniently for any mobile device.

Easily transmit faxes and review items within the users' inbox and outbox

Cut out the noise to make a simple interaction for mobile devices

Quickly and easily capture images of documents from your smartphone or tablet and benefit from automatic quality checks to ensure the captured image looks just right

Professionals on the go need AccuRoute CloudFAX for Mobile.

Benefit from the convenience of digital faxing without compromising on functionality or reliability.

Mobile document capture

- Turn your smartphone or tablet into a document scanner, so you aren't limited by geography when it comes to getting work done
- Grab corners, flatten edges, despeckle and deskew docs, and enhance images thanks to automatic AI-powered quality control
- Ensure documents captured from a mobile device look just as professional and legible as those scanned in the office

Sending a fax

- Access the same AccuRoute CloudFAX features and capabilities you're accustomed to
- Easily add cover pages and access templates
- Access saved contacts for fast transmission

Fax inbox

- Inbound fax preview and management capabilities
- Download documents

Fax outbox

- Easily manage your outbox with real-time transmission status tracking
- Review fax transmission status and history to ensure important communications arrived at their destination
