

Supercharge Your Project Team Performance

“Eclipse PPM has allowed us to centralize the management of our IT portfolio and given us a way to standardize how we execute projects.”

– Barinder Khurana, Director of PMO & VMO, Prosight Specialty Management Company, Inc.

Eclipse Project Portfolio Management software delivers a robust, cloud-based project portfolio management solution that improves project prioritization, execution, communication and collaboration.

Eclipse combines powerful, top-level reporting with simple user interfaces. For executives, real-time strategic reports are available with a few clicks. For project managers, keeping projects up-to-date is a quick, efficient process. Plus, it's easy to use and implement.

Easy to Get Started

Choose your team, add your projects, and get up and running quickly. Through simple tasks, work item management, and preset configurations and processes, organizations can be ready-to-go within 30 days of implementation.

Modern Design That Grows with You

Save yourself from feature overload and focus on what matters most: projects and the resources required to get them done. Start with your current processes and implement each aspect of your project management vision with a platform that scales with your organization's changing needs.

An Out-of-the-Box Solution That Simplifies Project Management and Collaboration

If you're like most organizations, you want a project management and collaboration application without overhauling your existing processes and disrupting operations. Eclipse PPM maps precisely to your organizational needs and can be up and running in as little as 30 days.

The platform's modern UI maximizes user adoption and ensures effective oversight, prioritization, and tracking of all projects and resources.

Tuned for the Needs of Your Business

Eclipse PPM for IT

IT organizations need to invest in the right projects at the right time to provide the best service to their customers.

Eclipse PPM for Healthcare

Eclipse PPM offers a simplified, best-practice approach to PPM so healthcare organizations can prioritize, select, and track their projects and resources.

Eclipse PPM for PMOs

PMOs must drive positive organizational change while eliminating barriers to project delivery success.

Key Features

Portfolio Management

Eclipse PPM includes over 25 powerful reports that allow executives, sponsors, and project managers to quickly and easily produce project, resource, financial, and portfolio information.

Project Management

Eclipse PPM was designed to accommodate and improve your entire project lifecycle. The business case for the project can be built, evaluated, recommended, and finally delivered in Eclipse.

Resource Management

Resource managers need to understand who is working on what, who can take on more work and when.
