

Technical Training

OL[®] Connect Foundations

OL Connect Foundations is a bundle of three Getting Started courses:

- | Getting Started with OL Connect Designer
- | Getting Started with OL Connect DataMapper
- | Getting Started with OL Connect Automate

This activity-based program is designed to help you master the creation, management, and automation of transactional and promotional documents. Course includes instructor-led demonstrations to complete hands-on activities.

Delivery Options

Virtual Instructor-Led Training (VILT) per Person

Format: Live, remote sessions with an instructor delivered to participants from multiple companies

Duration: Eight four-hour sessions available once a quarter

Virtual Instructor-Led Training (VILT) per Company

Format: Live, remote sessions with an instructor delivered to up to five participants from one company

Duration: Eight four-hour sessions scheduled to suit company's availability

Audience

This course is intended for technical administrators who need to be familiar with all parts of OL Connect.

Participants should have strong computer skills and a basic understanding of conditional logic.
