

Your customer's journey starts before they call!

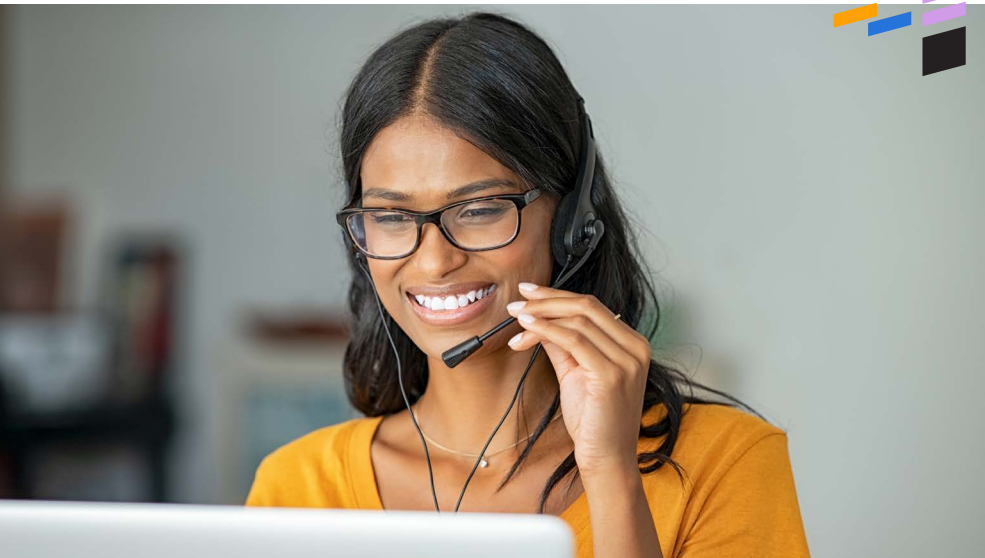

Deliver personalized intelligent knowledge at every stage of your customer journey.

When your chatbot fails your agents can't!

If an inquiry is transferred to an agent, customers expect the agent to understand their needs and instantly pick up where the bot left off. With Upland Panviva + Genesys, organizations can easily manage customer conversations as they move through channels.

By curating knowledge from a single source of truth, Panviva ensures every interaction is tailored to the customer's needs. Panviva has been the trusted knowledge management partner for leading organizations for over 20 years.

Upland Panviva Innovates with Genesys.

Upland Panviva is a Genesys Premium Application Partner and provides an automated installation experience.

As a Genesys partner, Panviva can keep in step with their customer roadmap to innovate solutions.
