

Qvidian for Microsoft Office

Craft persuasive proposals rapidly by adding approved and formatted Qvidian library content without ever leaving Excel, PowerPoint, or Word. Available to Enterprise and Essential licenses at no additional cost.

Essential Qvidian functionality with intuitive controls.

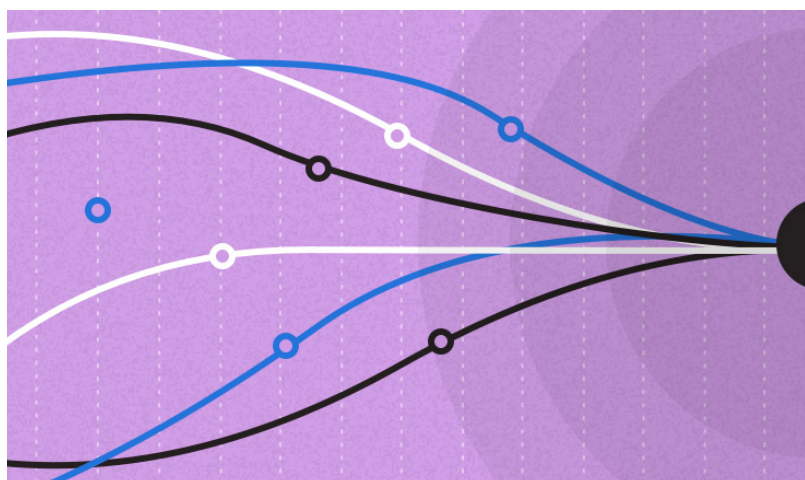

Game-changing advanced search.

Find the exact content you need in seconds. No more endless scrolling—quickly locate key information across your entire library.

- Cut through clutter and get the information you need, exactly when you need it

- Search within selected folders and subfolders in PowerPoint, Word, and Excel, eliminating the frustrating process of sifting through irrelevant content

Streamline your proposal development.

Simplify proposal creation by quickly inserting pre-approved, on-brand content directly into your Word, Excel, or PowerPoint documents.

- Instantly pull in product descriptions, legal disclaimers, or key content info stored in your library

- Reduce time spent on repetitive tasks with powerful automation, giving your team more time back to focus on crafting winning proposals

Discover unmatched efficiency with Qvidian's advanced search

In a world where speed is essential, Qvidian's advanced search capabilities empower you to find the exact content you need in seconds.

- Easily choose specific folders and subfolders to include for targeted and comprehensive searches
- Quickly locate relevant files and content and insert results directly into your document

Breeze through complex Excel-based RFPs

When deadlines loom, have the full power of Microsoft Excel at your fingertips.

- Full support for macros, protected worksheets, conditional cells, calculations, and beyond

Finish Word-based proposals in minutes, not hours

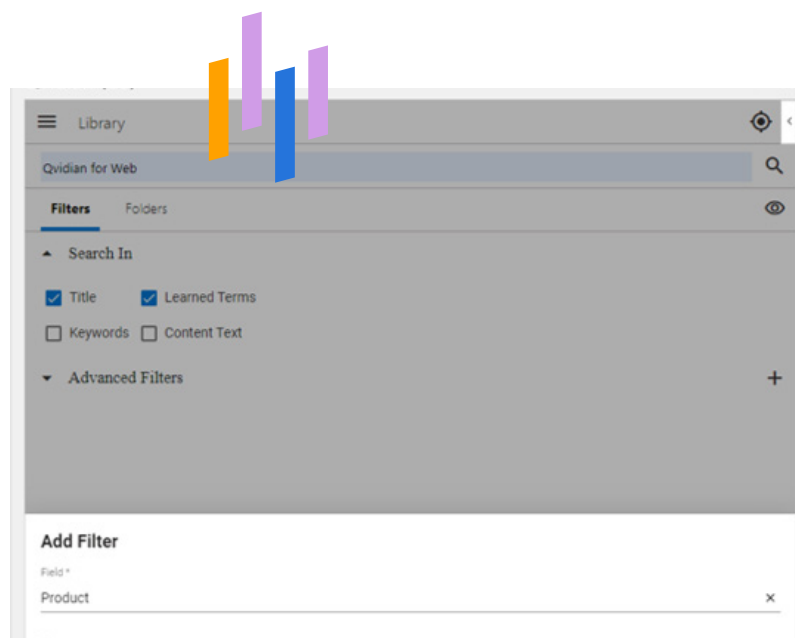

Access the power of proposal content libraries and RFP draft automation in Word.

- Craft and edit custom-branded Microsoft Word templates in minutes

Tackle your next big PowerPoint presentation or proposal effortlessly

Easily find the exact the content you need.

- Effortlessly find and insert key content into sales presentations and PowerPoint proposals while matching source or destination formatting
- Bring powerful automation to your process, helping you draft presentations in minutes, not hours

Qvidian search filters

Qvidian's filters ensure you can efficiently find the documents you need—enhancing your productivity and workflow.

Title

- Search by the title of documents.

Keywords

- Find documents using specific keywords.

Content Text

- Locate documents based on the text within their content.

Learned Terms

- Use learned terms for more precise searches.
