# Qvidian

Qvidian for Web

Easily respond to online RFPs, access approved content, and more without ever leaving your browser.

Now your entire organization can easily access content managed in Qvidian.

Essential Qvidian functionality, right from your browser.

Finding exactly what you're looking for couldn't be easier when you take advantage of Qvidian's suggested filters and learned terms.

- Run broad searches across your entire library or focus in to search among selected folders.

- Use Qvidian's Suggested Filters feature to filter and narrow down your search results based on Custom Metadata applied to the content found in your search results.

- Preview content or view details to see properties and more.

Not only for your RFP teams, but your whole organization.

Everyone can benefit from finding and consuming content quickly on various RFP portals, websites, and web-based tools, such as Google Docs, Sheets, and Slides.

- Easily copy the content to your clipboard using the Copy Text button for any content that supports HTML preview.

- Download any content, even standard PDF and PowerPoint decks, for quick use.

- Ensure the ongoing quality of the content by submitting feedback to the content owners.

Upland Qvidian is used by the world's top companies

Aflac

Canon
