

PowerSteering (PSS) Admin Virtual Training

Course Overview

PowerSteering (PSS) Admin is a 15-hour course [5 x 3-hour sessions] that helps users familiarize themselves with the PowerSteering product to assist in day to day business practices. PSS Admin follows an active learning methodology that encourages the participant's understanding. This course will be given using a combination of lecture, demonstration and exercises.

Benefits:

This hands-on experience will allow you to deepen your understanding of PowerSteering and unlock the product's full potential for you and your organization. You will acquire knowledge of how to administer and manage the application. You will also receive an official Certificate of Completion at the end of the course.

Course Objectives:

- Understanding Architecture Basics
- Insight into Data Capture configuration
- Knowledge of Gated Processes
- Creating and Managing Work Templates
- Creating and Managing Work Generation Templates
- Creating and Managing Metric Templates
- Creating and Managing Users
- Administrator Overview
- Creating and Managing Dashboards, Executive Reviews, Financial Reviews
- Creating and Managing Reports

Delivery Method:

- All classes are delivered online

Course Duration:

- 3-hour classes over 5 consecutive days for a total of 15 hours

Who Should Attend:

- PowerSteering users needing to know how to configure and administer PSS

Pre-Requisites:

- Preferably having basic experience with PowerSteering in general

Pricing:

- USD\$2,600 | GBP£1,986 | EUR€2,272
